about me

Hi, I'm Lu!

Do you love traveling around the world but have a hard time having cool pics where you show up too? Selfies, only landscape photos, tripod, extra weight, remote control, timer, to ask someone to take a photo "please" and when you look the photo there are many people in the background, heads cut – it doesn't always work, does it?

If you identify yourself, you need a travel photographer!

What about taking spontaneous and fun pictures, living the moment? And come home with a beautiful album of memories, with fotos in very high quality, those that we see in the magazines?
